BH: The interconnection with local children/schools and cultural landscape is really going to help to address the real issue that we need to be asking

BH: I worry that we are sometimes so preoccupied with what sort of planet we are leaving for our children, that we are ignoring the real issue of what sort of children we are leaving for the planet.

ES: Make sure to ask your questions in the Q&A tab for Xavier, they will be joining the live Q&A shortly!

sn: Very interesting point about people wanting a manicured landscape. In UK people are never asked about what landscape they want in a new build
