Ordering information

Packing: We send orders in boxes of fixed size. Therefore plants may be trimmed back to fit sometimes.

Delivery (winter): We send to the UK, Channel Islands and Isle of Man only. (Not to the EU or Northern Ireland). We send plants out in the dormant season: the best time of year to be planting. We are carbon-negative organisation, we store more carbon on our sites than we emit from all sources, including the carbon emitted by delivery companies delivering plants etc. For plants we use biodegradable/reused packaging.

On ordering, your order will go into a queue for delivery between November and March – we'll give you an estimate of delivery period. We can only send to "proper" postcoded addresses – not to fields, gateways, parks etc. Most UK orders will be sent by carrier on a next day service although we cannot guarantee either the day or time of delivery (couriers won't either!)

It costs a lot to send trees, and most couriers do not want to transport either plants or long parcels, so we don't have much choice.

Delivery Charges

When you order online these charges are calculated automatically.

If you only want 1-2 small perennial plants (not trees) a small delivery rate may apply – contact us for a postage quote at mail@agroforestry.co.uk.

Basic delivery charge for most of mainland England, Wales, lowland Scotland: 12.5% of order value (minimum delivery charge £27.00)

Isle of Wight: basic as above + £7.00;

Central London /remote area surcharge: basic as above + £3.00.

Channel Islands**: basic as above + £18.00.

Isle of Man: basic as above + 18.00.

Scottish Highlands & Islands, Scilly Isles: basic as above + £20.00.

**Note we cannot send these genera to Jersey: Amelanchier, Chaenomeles, Crataegus (hawthorns), Cydonia (quinces), Eriobotrya (loquats), Malus (apples), Pyrus (pears) and Sorbus.
